

CURRICULUM VITAE
Angeliki R. Burriel DVM, MSc, MSc, PhD
Professor of Microbiology and Infectious Diseases
Department of Nursing
University of Peloponnesus, Greece

Phone: 27310-89723

E-Mail: aburriel@uop.gr, elpida@rediffmail.com

EDUCATION

1. **Aristotelian University**, Thessaloniki, Greece. Graduated March 1981 with the Degree in Veterinary Medicine
2. **Royal Veterinary College**, University of London, UK. Graduated October 1986. Degree, “Master of Science in Animal Health” with a distinction
3. **Royal Veterinary College**, University of London, UK. Graduated October 1994. Degree, “Doctor of Philosophy” in Medicine
4. **Troy State University**, Alabama USA. Graduated in August 2001. Degree “Master of Science in International Relations”

PROFESSIONAL EXPERIENCE

February 2016 to date: Professor of Microbiology and Infectious Diseases, Department of Nursing, University of Peloponnesus

January 1999 to January 2016: Professor of Veterinary Microbiology and Director of the Laboratory of Microbiology and Parasitology, Faculty of Veterinary Medicine, University of Thessaly, Greece. Responsibilities involve,

1. the daily planning of laboratory procedures – training of students
2. the planning of its future development as an accredited teaching and diagnostic facility,
3. the management of its budget
4. supervision of working personnel and postgraduates
3. the teaching of Microbiology, Diagnostic Microbiology - Immunology and Infectious Diseases (bacterial – 1999 to date and viral – 1999 to 2002) and
4. the supervision of PhD students

January 1995 to October 1998: Postgraduate student at Troy State University studying for the Degree “**Master of Science in International Relations.**” I researched two major subject areas. The socio-economic factors **predisposing to epidemic diseases** and the **impact of postgraduate education of foreign scientists to the receiving society.** Concurrently I worked with the support of personnel from the Dept of Farm Animal and Equine Medicine and Surgery, The Royal Veterinary College, London, (1994-1996), toward the publication of numerous papers, which were the result of research from previous years. I volunteered at a diagnostic laboratory of the United States Armed Forces in Germany (1996-1998).

January 1991 to October 1994: Fellow of the Biotechnology and Biological Science Research Council (BBSRC), UK researching the pathogenicity of Coagulase-negative Staphylococci and studying for the Degree “**Doctor of Philosophy.**” The appointment was held at the Dept. of Farm Animal and Equine Medicine and Surgery, RVC, London, under the supervision of **Professor JET Jones.**

October 1988 to January 1991: Research Assistant, Department of Farm Animal and Equine Medicine and Surgery, RVC under the supervision of **Professor JET Jones.** I assisted in the investigation of sheep mastitis caused by *Pasteurella haemolytica* and the study of its virulence factors

December 1987 to August 1988: Living and working in Spain.

January 1987 to July 1987: Research Assistant, Department of Epidemiology, Parasitology and Infectious Diseases, School of Veterinary Medicine, Oklahoma State University, researching, under the supervision of **Professor C. Fox,** novel methods of diagnosing parasitic diseases and in particular, *Toxoplasma gondii.*

October 1985 to October 1986: Postgraduate student at the Royal Veterinary College, London, studying for the degree “**Master of Science in Animal Health.**” My dissertation was on “**Some serological Investigations of Abortion in Sheep and Goats**”

March 1985 to October 1985: Greek State Veterinarian, Kapandriti Veterinary Investigation (V.I.) Center, Greece. My responsibilities were the routine daily inspections of

regulation compliance, epidemiological investigations of infectious diseases, inspection of food preparing premises and compliance to the rules of Public Health protection.

August 1983 to March 1985: Local veterinary consultant, Naflpion, Greece. Giving consultations for food producing animals. Dealing with flock diseases, management of feeding regemes, vaccination programs and reproduction problems. Main animal species were small ruminats

July 1981 to June 1983: Studying the English Language in the United States of America and simultaneously working as a volunteer in local veterinary practices preparing for the Foreign Graduate Examinations.

LANGUAGES

- English is the language of all my postgraduate education and the largest part of my work experience.
- Native speaker of Greek
- Italian as a third language at conversational level
- Some conversational Spanish

ASSOCIATIONS – SOCIETIES

- Member of the Hellenic Veterinary Association
- Member of the GEOTEE
- Member of the Hellenic Veterinary Society
- pMember of the Royal College of Veterinary Surgeons, UK
- pMember of the American Association of Small Ruminant Practitioners
- pMember of the Sheep Veterinary Society, UK
- pMember of the Society of Electron Microscope Technology, UK
- pMember of the American Association of the History of Medicine

PARTICIPATION IN RESEARCH GRANTS

I have participated the past decades in nineteen national and international research projects and have competed, as member of international groups, in numerous other efforts for research funding

NATIONAL AND INTERNATIONAL CONFERENCES

I have participated with presentations in more than 45 conferences with more than 60 abstracts or full papers

PUBLISHED RESEARCH

Books, Thesis, book chapters, published research papers

1. Angeliki R. Burriel (2002). A 21st Century of Maximum Civilization or Chaotic-anarchy and Epidemics? Trafford Publishing, Victoria, Canada
2. Angeliki R. Burriel (1986). Thesis for the Master of Science in Animal Health: "Some serological Investigations of Abortion in Sheep and Goats", Royal Veterinary College, University of London
3. Angeliki R. Burriel (1994). PhD thesis "A Study of Coagulase-negative Staphylococci Associated with Subclinical Mastitis in Sheep" Royal Veterinary College, University of London
4. A. R. Burriel & S. Anastasiou (2006), Intercultural communications in Post Graduate Education. Ed S. Vlachopoulos & P. Tagas, Pub Dionikos, Athens, pp 80-91
5. A. R. Burriel I have translated into Greek language six chapters from the book veterinary immunology, Ian R. Tizard (2007), Pub Parisinos AE, ed G. Koproopoulos
6. A. R. Burriel (2010). Chapter, Leptospirosis: An important zoonotic disease. Current Research, Technology and Education Topics in Applied Microbiology and Microbial Biotechnology, Vol 1, p 687-693, Ed Mendez-Vilas, FORMATEX, Spain
7. A. R. Burriel (2011) Chapter 20, Enzootic Abortion. Production of Small Ruminants, ed G. Fthenakis, Tziola Pub, Athens, GR , p 225-232
8. A. R. Burriel & Fragou A (2011) Chapter 24, Listeriosis. Production of Small Ruminants, ed G. Fthenakis, Tziola Pub, Athens, GR , p 247-250
9. A. R. Burriel (2011) Chapter 25, Salmonellosis, leptospirosis, Q fever, campylobacteriosis. Production of Small Ruminants, ed G. Fthenakis, Tziola Pub, Athens, GR , p 251-258
