

Dear partner

Dear colleague

We are very pleased to announce our first Season School in elderly care, called "CREATIVE SOLUTIONS FOR AGING POPULATIONS AND THEIR INFORMAL CAREGIVERS".

The idea to organize this event was one of the results of an intensive collaboration between Howest University of Applied Sciences (Bruges) and Kajaani University of Applied Sciences.

The SUMMER EDITION will take place from 25 till 29th June 2018 at Howest, campus Rijselstraat. The winter edition will take place in February 2019 in Kajaani (Finland).

The event will provide the participants with a combination of input sessions and workshops, casework in international mixed teams, guided visits and social events. Central themes are:

1. Smart solutions in elderly care
2. Creative interventions in dementia care
3. Stimulating resilience for informal caregivers

This Season School is open for NURSING STUDENTS and PROFESSIONALS.

Please find attached more information. Soon you will find detailed information on the Howest website [1]. Online registration will be possible on the website this Autumn.

We hope to make this Season School a very exciting event! Do not hesitate to contact us for more information:

- Teija Ravelin: teija.ravelin@kamk.fi
- Wouter Decock: wouter.decock@howest.be

Looking forward to meeting you in June!

Kind regards

Wouter Decock and Teija Ravelin
